

PSO Business Rebates Comprehensive Upgrades Bonus

Customers who complete three or more different types of retrofit upgrades are eligible for a bonus rebate up to 20%.

Eligible Retrofit Upgrades

- Building Envelope
- Commercial Appliances, Refrigeration & Kitchen Equipment
- Custom (Chillers, Motors, Pumps, etc.)
- HVAC, HVAC VFDs, HVAC Controls
- Lighting & Lighting Controls
- Plug Load Controls
- Virtual Commissioning (VCx)
- Virtual Strategic Energy Management (vSEM)

Details

In addition to all measure-level technical requirements, the following requirements must be met to qualify for the bonus rebate:

- **Complete projects from at least 3 different categories.** Categories and possible upgrades are outlined on the next page.
- **Bonus rebates must be pre-approved by PSO.** The bonus is for retrofit projects (upgrading existing equipment) and is not applicable for new construction or major renovation projects. All bonus applications need to be pre-approved to determine final bonus payment amount.
- **Multiple upgrade projects may be completed in phases or all at once.** If you choose to perform installation in phases, please submit your final invoices for each completed and installed upgrade to receive your standard rebate payment. The bonus rebate will be paid once all phases are complete.
- **Bonus Caps:** The bonus for lighting upgrades is capped at 5%. If the lighting bonus is greater than the sum of the non-lighting bonuses, the total bonus will be capped at the lighting bonus.

Apply

1. Submit project information, including the Comprehensive Project List, and a signed Terms and Conditions Form to [PSOBusinessRebates.com](https://www.pso.com/PSOBusinessRebates.com).
2. Complete the qualifying energy efficiency projects all at once or one at a time.
3. Submit all final documentation for review to receive the bonus rebate.
