

PSO Prescriptive Rebates – Kitchen & Refrigeration Equipment Technical Requirements

Application Requirements

- A rebate application must be submitted for pre-approval before purchasing and installing equipment, when the project includes a total estimated rebate of \$5,000 or more.
- For projects that do not require pre-approval, a rebate application must be submitted within 60 days of the invoice date.
- All proposed equipment must be new. Used or refurbished equipment is not eligible for rebates.

Required Documentation:

- ☐ Customer signed Terms and Conditions
- ☐ Spec sheets of new equipment
- ☐ Itemized invoice, upon project completion

Submit the rebate application online: www.psobusinessrebates.com

Kitchen Equipment Rebates:

Commercial Dishwashers

- This upgrade involves the installation of an ENERGY STAR® Commercial Dishwasher in a new construction or replacement-on-burnout application.
- Dishwashers must be listed in the [ENERGY STAR® Certified Commercial Dishwashers](#) qualified product list (QPL).
- Rebate amount applies to sanitation method and type categorized by the ENERGY STAR® QPL.

Commercial Dishwasher Rebates		
Upgrade	Type	Rebate/Unit
High Temperature Electric Heater Electric Booster	Under Counter	\$700
	Stationary Single Tank Door	\$1,900
	Pots, Pans and Utensils	\$500
	Single Tank Conveyor	\$1,700
	Multiple Tank Conveyor	\$4,500
High Temperature Gas Heater Electric Booster	Under Counter	\$400
	Stationary Single Tank Door	\$700
	Pots, Pans and Utensils	\$200
	Single Tank Conveyor	\$800
	Multiple Tank Conveyor	\$1,800
Low Temperature Electric Heater Electric Booster	Under Counter	\$600
	Stationary Single Tank Door	\$2,600
	Single Tank Conveyor	\$2,600
	Multiple Tank Conveyor	\$3,600

For more information, visit PowerForwardWithPSO.com, or call 888.776.1366.

Electric Deep Fryers

- This upgrade involves the installation of an ENERGY STAR® Commercial Fryer in a new construction or replacement-on-burnout application.
- Fryers must be listed in the [ENERGY STAR® Certified Commercial Fryers](#) qualified product list (QPL).
- Rebate amount applies to the type of unit categorized by the ENERGY STAR® QPL.

Electric Deep Fryer Rebates	
Upgrade	Rebate/Unit
Standard Vat Fryer	\$100
Large Vat Fryer	\$150

Electric Hot Food Holding Cabinet

- This upgrade involves the installation of an ENERGY STAR® Commercial Holding Cabinet in a new construction or replacement-on-burnout application.
- Holding cabinets must be listed in the [ENERGY STAR® Certified Commercial Hot Food Holding Cabinets](#) qualified product list (QPL).
- Rebate amount applies to interior volume categorized by the ENERGY STAR® QPL.

Electric Insulated Holding Cabinet Rebates	
Interior volume	Rebate/Unit
Half Size (<13 cu.ft)	\$100
Three-Quarter Size (13 – 28 cu.ft.)	\$150
Full (>28 cu.ft)	\$200

Electric Ovens

- This upgrade involves the installation of an ENERGY STAR® Commercial Oven in a new construction or replacement-on-burnout application.
- Ovens must be listed in the [ENERGY STAR® Certified Commercial Ovens](#) qualified product list (QPL).
- Rebate amount applies to the oven type categorized by the ENERGY STAR® QPL.

Upgrade	Rebate/Unit
Electric Convection Oven	\$200
Electric Combination Oven	\$1,000

Electric Steam Cookers

- This upgrade involves the installation of an ENERGY STAR® Commercial Steam Cooker in a new construction or replacement-on-burnout application.
- Steam cookers must be listed in the [ENERGY STAR® Certified Commercial Steam Cookers](#) qualified product list (QPL).

Upgrade	Rebate/Unit
Electric Steam Cooker	\$1,000

Ice Machines

- This upgrade involves the installation of an ENERGY STAR® Commercial Ice Machine in a new construction or replacement-on-burnout application.
- Ice machines must be listed in the [ENERGY STAR® Certified Commercial Ice Machines](#) qualified product list (QPL).
- Rebate amount applies to the ice and equipment categorized by the ENERGY STAR® QPL.

Ice Machine Rebates		
Ice Type	Equipment Type	Rebate/Unit
Batch Ice Machine	Self-Contained Unit	\$100
	Ice Making Head	\$100
	Remote Condenser/Split System	\$200
Continuous Ice Machine	Self-Contained Unit	\$100
	Ice Making Head	\$150
	Remote Condenser/Split System	\$200

Kitchen Vent Hood Controls

- This upgrade involves the installation of vent hood controls in a new construction or retrofit application.
- The installation of a Demand Ventilation Control (DVC) system on a commercial kitchen exhaust fan(s) that varies the rate of ventilation (exhaust and/or makeup air fans) by modulating fan speed in response to the presence and level of cooking activity.

Upgrade	Rebate/Exhaust Fan HP
DCV Vent Hood Controls	\$750

Freezers/Refrigerators

- This upgrade involves the installation of an ENERGY STAR® Refrigerators and Freezers in a new construction or replacement-on-burnout application.
- Freezers and Refrigerators must be listed in the [ENERGY STAR® Certified Commercial Refrigerator and Freezers](#) qualified product list (QPL).
- Rebate amount applies to type and interior volume categorized by the ENERGY STAR® QPL.

Freezer Rebates		
Type	Volume	Rebate/Unit
Reach-In Freezer	0-15 cubic feet	\$80
	16-30 cubic feet	\$120
	31-50 cubic feet	\$160
	> 50 cubic feet	\$200

Refrigerator Rebates		
Type	Volume	Rebate/Unit
Reach-In Refrigerator	0-15 cubic feet	\$40
	16-30 cubic feet	\$60
	31-50 cubic feet	\$80
	> 50 cubic feet	\$100

For more information, visit PowerForwardWithPSO.com, or call 888.776.1366.

Refrigeration Rebates:

Anti-Sweat Heat Controls

- This upgrade applies to the retrofit only installation of anti-sweat heater controls on existing glass doors for reach-in commercial refrigerators and freezers and does not apply to new construction applications.
- Qualifying equipment includes any controls that reduce the run-time of door and frame heaters for refrigerated cases.

Anti-Sweat Heat Control Rebates	
Door Type	Rebate/Door
Cooler Doors (Medium Temperature)	\$100
Freezer Doors (Low Temperature)	\$100

ECM Evaporator Fan Motor

- This upgrade applies to the retrofit only installation of an Electronically Commutated Motor (ECM) on commercial cooler/freezer walk-ins and display cases and does not apply to new construction applications.
- This upgrade cannot be used in conjunction with the Evaporator Fan Controls upgrade.

ECM Evaporator Fan Motor Rebates	
Cooler or Freezer Type	Rebate/Motor
Walk-In Cooler or Freezer	\$100
Display Cooler or Freezer	\$100

Evaporator Fan Controls

- This upgrade applies to the retrofit only installation of electronic controls on existing walk-in cooler and freezer and does not apply to new construction applications.
- The controls must modulate the evaporator fan operation based on the temperature of the refrigerated space.
- This upgrade cannot be used in conjunction with the ECM Evaporator Fan Motor upgrade.

Upgrade	Rebate/Motor
Walk-in Evaporator Fan Controls	\$70

Door Gaskets

- This upgrade applies to the retrofit only replacement of worn-out or damaged gaskets on commercial walk-in or reach-in cooler and freezer doors and does not apply to new construction applications.
- The invoice must show the linear feet of the damaged gasket, and the total linear feet of gasket replaced.
For example, if a 2-foot section is damaged and the customer has to replace 5 feet to match the design and color, the invoice must list both 2 feet of damaged gasket and 5 feet total replaced.
- Rebate is based on the total linear feet of gasket replaced
- Clear photos of before and after installation of the door gaskets are required.

Gasket Rebates	
Upgrade	Rebate/Linear Foot
Cooler Gasket	\$4
Freezer Gasket	\$4

For more information, visit PowerForwardWithPSO.com, or call 888.776.1366.

Night Covers

- This upgrade applies to the retrofit only installation of night covers on existing open type refrigerated display cases and does not apply to new construction applications.
- The covers should be deployed during the facility's unoccupied hours to reduce refrigeration energy consumption.

Upgrade	Rebate/Foot
Night Covers	\$15

Door Closers

- This upgrade applies to the retrofit only installation of an auto-closer on walk-in cooler or freezer doors and does not apply to new construction applications.
- The auto-closer must be able to firmly close the door when it is within one inch of full closure.

Reach-In Door Closer Rebates	
Upgrade	Rebate/Door
Walk-in Cooler Doors	\$75
Walk-in Freezer Doors	\$75

Refrigeration Suction Pipe Insulation

- This upgrade applies to the retrofit only installation of insulation on existing bare suction lines on existing walk-in coolers and freezers and is not apply to new construction applications.
- Must insulate bare refrigeration suction lines 1-5/8inch in diameter or less that are located outside of the refrigerated space for walk-in coolers and freezers.
 - Cooler lines require 3/4 inch of flexible, closed-cell, nitrite rubber or an equivalent insulation.
 - Freezer lines require 1-inch of insulation that follows the specifications above.
 - And insulation exposed to the outdoors must be protected from the weather (i.e. jacketed with a medium-gauge aluminum jacket).

Upgrade	Rebate/Foot
Low Temperature Walk-in Freezer	\$1
Medium Temperature Walk-in Cooler	\$1

Strip Curtains

- This upgrade applies to the retrofit only installation of new strip curtains on existing walk-in coolers or freezers and does not apply to new construction applications.
- The walk-in must either lack a strip curtain or have a damaged or ineffective strip curtain.
- Strip curtains must be at least 0.06 inches thick.
- Low temperature strip curtains must be used for low temperature applications.

Upgrade	Rebate/Square Foot
Strip Curtains	\$10

VSD Refrigeration Compressor Controls

- This upgrade applies to the retrofit only installation of a VSD control system on a refrigeration compressor replacing a slide valve control system and does not apply to new construction applications.

Upgrade	Rebate/Ton
VSD Refrigeration Compressor Controls	\$300

Zero Energy Door

- This upgrade applies to the retrofit only installation of zero energy doors on existing reach-in refrigerated cases and does not apply to new construction applications.
- Doors must have either heat reflective treated glass, be gas-filled, or both.
- Zero energy doors eliminate the need for anti-sweat heaters and cannot be applied for in conjunction with the Anti-Sweat Heat Controls upgrade.

Zero Energy Door Rebates	
Case Type	Rebate/Door
Low temperature (<25°F)	\$300
Medium temperature (25-40°F)	\$200
High temperature (41- 65°F)	\$200
