

PSO Prescriptive Rebates - Plug Load & Controls Technical Requirements

Application Requirements

- A rebate application must be submitted for pre-approval before purchasing and installing equipment, when the project includes a total estimated rebate of \$5,000 or more.
- For projects that do not require pre-approval, a rebate application must be submitted within 60 days of the invoice date.
- All proposed equipment must be new. Used or refurbished equipment is not eligible for rebates.

Required Documentation

- ☐ Customer signed Terms and Conditions
- ☐ Spec sheets of new equipment
- ☐ Itemized invoice, upon project completion

Computer Power Management

- This upgrade applies to retrofit projects only, installing a Computer Power Management (CPM) system on a network of computers that are at least one year old that do not currently have a PC power management system installed.
- CPM automates the control of the power, or “sleep” setting of a network desktop or laptop, using built-in features or add-on software programs to switch off displays and enable computers to enter a low power setting called sleep mode during periods of non-use.

| Computer Power Management Rebates | |
|-----------------------------------|-------------|
| Machine | Rebate/Unit |
| Laptop | \$10 |
| Desktop | \$15 |

High Frequency Forklift Battery Chargers

- This upgrade applies to both new and retrofit projects of industrial electric forklifts.
- The high frequency battery charger must have a conversion efficiency of at least 89% and apply to 24V, 36V, or 48V battery designed for an electric pallet jack or forklift.
- If the equipment is a retrofit, each new charger must replace at least one existing Silicon-Controlled Rectifier (SCR) or Ferro Resonant (FR) charger.
- Rebate cannot exceed 50% of the equipment cost.
- Limit of \$20,000 in rebates per customer.

| Upgrade | Rebate/Unit |
|---|-------------|
| High Frequency Forklift Battery Charger | \$500 |

Pool Pumps

- This upgrade applies to retrofit projects only and includes the replacement of a single-speed pool pump with an ENERGY STAR® certified variable speed pool pump.
- This upgrade applies to all commercial applications with a pump size up to 3 horsepower (HP). Please submit a custom application for larger sizes.
- Documentation of the pool hours and operation months must be submitted with the application.

Smart Power Strips

- This upgrade applies to retrofit projects only for any plug strip that eliminates idle or stand-by power consumption of connected plug-load appliances through the use of an electric load sensor or timer.

| Upgrade | Rebate/Strip |
|-------------------|--------------|
| Smart Power Strip | \$10 |

Smart Power Strip with Personal Occupancy Sensor

- This upgrade applies to retrofit projects only for any plug strip that eliminates idle or stand-by power consumption of connected plug-load appliances through the use of an occupancy sensor.

| Wattage Controlled | Rebate/Strip |
|--------------------|--------------|
| 25 Watt | \$20 |
| 50 Watt | \$30 |
| 150 Watt | \$50 |

Vending Machine Control – Non-refrigerated and Refrigerated

- This upgrade applies to retrofit projects only for lighted display vending machines with no pre-existing controls.
- Applicable control types include occupancy or schedule-based controls installed on the unit that will reduce energy consumption by powering down the refrigeration and lighting systems when the control does not detect human activity and by reducing the refrigeration process, while still maintaining product quality.

| Machine | Rebate/Unit |
|--|-------------|
| Non-Refrigerated Snack Vending Machine | \$50 |
| Refrigerated Beverage Vending Machine | \$100 |
| Refrigerated Glass Front Reach-In Cooler | \$100 |
